Okay. One of my reasons for this was that I am new to the site and still gathering information.

Michael,

I think this call might be less of a consult and more of an information meeting. I talked to management, and we think this should be an internal call. I am not sure if another call with the state would even be necessary, but if it is, we can have that once the state person can be available.

Linda,

This is a state lead site, so it is important that they be on the call. Unfortunately, they are not available until Monday the 29th (the geologist is on vacation). Could we push it back until then? Sometime before 2:30 Eastern?

Thankyou,
 Michael
